

Most shipping companies use “dimension weight” to calculate shipping costs, not the actual weight of the item. The Shipping Weight columns reflect dimension weight calculations and should be used to estimate costs. Actual weights are included for reference.

Model Number	Number of Pieces	Dimensions (H x W x D, in)	US Shipping Weight (Pounds)	Int'l Shipping Weight (lbs / kg)	Actual Weight (Pounds)	Actual Weight (Kilograms)

① These models are attached to pallets and the Width and Depth dimensions correspond to the edges of the pallet.

② All weights include all drives that the model can hold. Drives are shipped in the accessory box in some models.
