

- Up to 87% efficiency
- High power density
- Remote on/off
- 5V Standby output (1amp)
- Universal AC input
- Active PFC (90 – 264 VAC)
- Inrush current protection
- RoHS compliant

XL260-2ATX Model shown

Power Supply Design Leader

N2Power™ leads the power density race with its small, high efficiency ATX Series AC-DC power supplies. Our advanced technology yields a very small footprint, reduces wasted power and offers the highest power density in its class. This efficient design means reduced energy costs, a greater return on your investment, greater reliability and longer product life.

Unmatched Power Density

Our ATX Series models are designed expressly for OEM packaging in 1U and 2U chassis to deliver very high power density. The XS285-ATX model features multiple outputs and cooling in an industry standard enclosure for PC chassis applications.

High Efficiency in a Small Package

The ATX Series provides up to 87% efficiency. Our unique design reduces energy consumption and generates less wasted heat.

It requires little forced air cooling, decreases AC loading, and increases reliability and economy of operation. Comparisons of efficiencies show that our supplies can reduce losses up to 50%.

Repeatable Quality

Each power supply design is tested by UL, and every one we manufacture undergoes a complete functional test and a multi-hour burn-in to insure that every unit meets our stringent quality requirements.

INPUT SPECIFICATIONS	
Nominal Input Voltage:	100 – 240 VAC
Tested Input Limits:	90 – 264 VAC
Input Frequency Range:	47 – 63 Hz
Input Current:	See Product Specification
Safety Isolation:	3000 VAC in to out 1500 VAC in to ground
Inrush Current:	See Product Specification
Leakage Current:	0.75 – 1.4 mA @ 240 VAC / 60 Hz
Power Factor Correction:	Active PFC circuitry, meets or exceeds EN61000-3-2
OUTPUT SPECIFICATIONS	
Total Output:	125W – 285W
Hold-up Time:	Minimum 22 ms
Efficiency:	Up to 87%
Minimum Load:	No load
Over / Under Shoot:	Max 10% at turn-on
PROTECTION	
Input Overcurrent Protection:	See Product Specification
Overvoltage Protection:	V1, V2 and V3 (latches off)
Overpower Protection:	Protected / Auto-recovery
Short Circuit Protection:	Auto recovery of all outputs protected against short circuit
Thermal Shutdown:	Auto recovery protection against over temperature conditions
ENVIRONMENTAL SPECIFICATIONS	
Operating Temperature:	-25 to +50° C
Temperature Derating:	2.5% / degree, 50° C to 70° C
Storage Temperature:	- 40 to +85° C
Forced Air Cooling:	10 CFM minimum *
MTBF:	>200,000 hours (calculated)
SIGNALS	
Remote Sense	See Product Specification
Fan Output	See Product Specification
Remote Enable Input	Low-true input
Power Good	Positive true

* XS285-ATX contains fan
